

JUAN365

₱6,216 Red Angpao. Every deposit reactivates.

A **deposit-triggered reward ecosystem** for new *and* existing players. Each qualifying deposit fires a fresh 7-day Angpao cycle — non-stackable, tiered, randomized — turning one-time bonuses into a **repeatable retention loop**.

▸ SECTION 01

Overview & Objectives.

Unlike a one-time welcome bonus, the ₱6,216 Red Angpao continuously monetizes and retains the existing player base — every qualifying deposit re-arms a 7-day reward cycle. The goal: sustainable deposit frequency, retention, and lifetime value.

▸ TRIGGER

Anti-stacking system

The ₱6,216 Red Angpao ecosystem.

A deposit-triggered reward system for **both new and existing players**. Unlike traditional one-time welcome bonuses, it activates a fresh 7-day Angpao cycle **every time** a player makes a qualifying deposit after the previous cycle has ended.

▶ DESIGNED TO IMPROVE

- ▶ Deposit frequency
- ▶ Player retention
- ▶ Recharge volume
- ▶ Gameplay engagement
- ▶ Customer Lifetime Value (LTV)
- ▶ Brand loyalty
- ▶ Viral social engagement & revenue growth

▶ THE PROMOTION COMBINES

- ▶ Deposit-activated reward system
- ▶ 7-day Angpao retention cycle
- ▶ Tiered reward structure
- ▶ Randomized bonus psychology
- ▶ Reload retention strategy & gamification
- ▶ Social media + live streaming promotions
- ▶ SMS retargeting & VIP retention marketing

▶ PRIMARY GOALS

Eight primary goals.

The campaign is built to grow deposits and retain the existing base — not just acquire. Each goal maps to the KPI targets defined in Section 04.

▶ Increase deposit conversion rate

▶ Increase reload deposit frequency

▶ Improve existing player retention

▶ Encourage higher deposit amounts

▶ Increase gameplay turnover

▶ Improve Customer Lifetime Value (LTV)

▶ Build long-term player engagement

▶ Create a sustainable promotional ecosystem

▶ THE SHIFT

Instead of rewarding only acquisition, this campaign **continuously monetizes and retains the existing player base** — converting promotional spend into a repeatable retention engine.

▸ SECTION 02

Concept & Mechanics.

The Red Angpao activates automatically whenever a player makes a qualifying deposit — opening a 7-day reward window scaled to the deposit tier. An **anti-stacking system** keeps cycles non-overlapping to protect profitability.

Deposit fires the Angpao.

The Red Angpao system activates automatically whenever a player successfully makes a **qualifying deposit**. Once activated, the player is eligible for Red Angpao rewards for **seven consecutive days**, with reward value based on the qualifying deposit tier — encouraging daily gameplay and continuous activity.

- New Players
- Existing Players
- Returning Players
- VIP Players

▸ ONCE ACTIVATED

The player becomes eligible for Red Angpao rewards for **7 consecutive days** · rewards are based on the qualifying deposit tier · the system **encourages daily gameplay and continuous activity**.

▸ CYCLES CANNOT OVERLAP OR STACK

Anti-stacking protection.

To maintain profitability and prevent abuse, Angpao activation **cannot overlap or stack**. Only the **first** qualifying deposit activates a cycle; deposits made during an active window do not reset or extend it. A new cycle is available only after the current 7 days complete.

SCENARIO A · NO RE-ACTIVATION

Deposit during active cycle

MONDAY Player deposits → **7-day cycle activates immediately**

WEDNESDAY Player deposits again (cycle still active)

RESULT

Wednesday's deposit does **NOT** create another cycle. The original Monday activation remains active until completion.

SCENARIO B · NEW ACTIVATION

Deposit after cycle ends

SUNDAY The 7-day cycle **ends**

MONDAY Player deposits again

RESULT

A **NEW** 7-day Angpao cycle activates. Players are motivated to return after each cycle completes.

▸ WHY IT WORKS

Prevents bonus abuse · controls operational cost · encourages long-term retention · maintains profitability · **motivates players to return after cycle completion.**

7-Day reward structure.

Reward scales with the qualifying deposit. Randomization within each tier keeps perceived value high while holding operational cost in a controlled band.

QUALIFYING DEPOSIT	DAILY ANGPAO REWARD	7-DAY REWARD POTENTIAL	COST RATIO	PLAYER VALUE
₱100 – ₱299	₱8 – ₱18	₱56 – ₱126	Low Risk	Entry Tier
₱300 – ₱499	₱20 – ₱28	₱140 – ₱196	Low Risk	Casual Player
₱500 – ₱999	₱38 – ₱58	₱266 – ₱406	Controlled	Mid Tier
₱1,000 – ₱2,999	₱88 – ₱138	₱616 – ₱966	Moderate	Active Player
₱3,000 – ₱4,999	₱148 – ₱288	₱1,036 – ₱2,016	Moderate	High Value
₱5,000 – ₱9,999	₱308 – ₱588	₱2,156 – ₱4,116	High Value	VIP Tier
₱10,000+	₱888	₱6,216	Premium Controlled	Premium VIP

How rewards reach players.

Daily Login Claim

Player claims an Angpao on each daily login during the active cycle.

Randomized Auto Angpao

System auto-drops a randomized reward — surprise variance drives re-engagement.

Gameplay Activity

Rewards triggered by real gameplay activity during the window.

Live Stream Giveaways

Angpao drops awarded during scheduled live streams.

VIP Surprise Drops

Premium surprise Angpao for VIP-tier players.

Mission & Milestone

Daily mission completion + deposit milestone rewards.

▸ RANDOMIZED PSYCHOLOGY

Randomized mechanics increase **excitement, curiosity, emotional engagement, and repeat participation** — stronger psychological retention while keeping promotional cost **manageable**.

Why the loop **wins.**

A one-time bonus rewards acquisition once. The deposit-triggered cycle rewards **every reload** — compared to traditional one-time bonuses, this system creates:

- | | |
|------------------------------------|--|
| ▸ Continuous deposit motivation | ▸ Increased gameplay turnover |
| ▸ Stronger retention behavior | ▸ Higher player loyalty |
| ▸ Longer player activity lifecycle | ▸ More predictable promotional cost management |
| ▸ Better reload conversion | |

▸ CORE ADVANTAGE

Instead of rewarding only acquisition, the campaign **continuously monetizes and retains the existing player base** — a repeatable retention loop, not a one-time promotional event.

A repeatable retention loop.

▸ NEW PLAYER JOURNEY

STEP 1-2

Register & Deposit ₱1,000

Player registers an account and makes a ₱1,000 deposit.

STEP 3-4

Cycle Activates

7-day Red Angpao activates automatically. Player receives daily Angpao opportunities.

STEP 5

Engagement Lifts

Gameplay and retention increase across the window.

▸ EXISTING PLAYER JOURNEY

STEP 1-2

Reload ₱3,000

Existing player deposits ₱3,000 → 7-day cycle activates.

STEP 3-4

7 Days of Angpao

Player receives daily Angpao rewards and keeps playing for the full 7 days.

STEP 5

Reactivation

After completion, another qualifying deposit reactivates the system — looping again.

▸ THE LOOP

This creates a **repeatable retention loop** instead of a one-time promotional event — each completed cycle invites the next qualifying deposit.

Profitable on reloads.

100 active players	reload cycle
Average reload deposit	₱1,000
Total deposits	₱100,000
Average Angpao cost	₱120
Estimated bonus cost	₱12,000
Estimated gameplay turnover	₱450,000
Estimated GGR @ 25%	₱112,500
Estimated Net Margin	+₱100,500

- **Controlled activation periods** — non-overlapping cycles cap concurrent exposure
- **Non-stackable reward cycles** — one active cycle per player at a time
- **10× turnover requirement** drives ₱450K turnover behind ₱12K bonus
- **Increased gameplay activity** + higher reload frequency
- **Retention-driven monetization** — value compounds across repeat cycles

▸ STRATEGIC RESULT

Even with reward distribution: retention increases significantly, turnover expands, deposit frequency improves, and **net profitability remains positive.**

- Available for both new and existing players
- Activates only after a successful qualifying deposit
- Activation period lasts 7 consecutive days
- Activations cannot overlap or stack
- If multiple deposits during an active cycle, only the **first** counts
- New activation only after the previous cycle ends
- Rewards depend on deposit-tier qualification
- Rewards are non-transferable and non-convertible
- Company may modify or terminate the promotion anytime
- Suspicious or fraudulent activity → bonus cancellation / disqualification

Salamat!

Deploy the Red Angpao retention engine.

More than a bonus system — a full-scale retention engine connecting marketing, player psychology, revenue optimization, community engagement, retention monetization, deposit growth, and brand loyalty. Strong potential as a flagship retention promotion, scalable reload ecosystem, and long-term revenue driver for Juan365.
